

Router Bit Range STRAIGHT CUTTING

First, try Walkers

ROUTER BITS TUNGSTEN CARBIDE TIPPED

For best results use our high performance, fast, accurate and smooth cutting router bits. All shanks are precision made from the finest alloy steel and heat treated for maximum strength. The Tungsten Carbide tips are selected for long life and accurately diamond lapped to the finest edge. A plastic container is supplied with each cutter to protect this fine edge.

SINGLE FLUTE

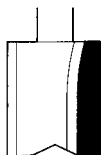

Single flute bits are ideal for cutting soft woods. The bit has high rake angles with large chip capacity.

Spoon bits are not recommended for accurate single pass grooving.
